

Red Tail (EWS-BN-015)

Broadly adapted and vigorous with very high yields of tender and flavorful beans. Certified Organic Seed

Growing Environment	Open Field
Market	Fresh Market
Resistances	HR: Bean Common Mosaic Virus (BCMV) HR: Beet curly top virus (BCTV) IR: Rust (Ua)
Advantages	High yield and broad adaptation to organic conditions. Selected for tender, flavorful 4-sieve beans.
Shape	Round Pod
Plant Habit	Vigorous Bush
External Color	Med Dark Green
Pod Position	Mid High
Pod Length	5.5" - 6"
Sieve Size	4
Relative Maturity	58 Days

HR = High Resistance. IR = Intermediate Resistance.
Performance may vary from location to location and from year to year, as local growing, soil and climatic conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's operation. Any recommendations provided on this technical sheet are based upon observations and feedback received from a limited number of trials and geographies. These recommendations should be considered as one reference point and should not be substituted for the professional opinion of agronomists, entomologists or other relevant experts evaluating specific conditions.
