

MAVERICK

(EWS-TOM-572)

Determinate beefsteak with impressive yields of high lycopene fruit and a disease resistance package suitable for dual use in open field or protected culture

Growing Environment	Open Field/Protected Culture
Advantages	High yield, deep shape, smooth shoulder, large fruit (250g)
Shape	Round
Plant Habit	Determinate
Resistances	IR: Ma/Mi/Mj, Pi, Ff: A-E, TSWV, TYLCV HR: Fol: 1-3, For, ToMV, Sbl/SI/Ss, Va/Vd
Market	Vine Ripe/Mature Green

HR = High Resistance. IR = Intermediate Resistance.

Performance may vary from location to location and from year to year, as local growing, soil and climatic conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on the grower's operation. Any recommendations provided on this technical sheet are based upon observations and feedback received from a limited number of trials and geographies. These recommendations should be considered as one reference point and should not be substituted for the professional opinion of agronomists, entomologists or other relevant experts evaluating specific conditions.
